

GIS TECHNICIAN

The Opportunity

Reporting to the Engineering Services Supervisor, the GIS Technician will support the ongoing maintenance and dissemination of data and applications in the GIS and CAD environments regarding municipal infra-structure and assets.

The Person

The City is looking for a highly motivated and professional individual who is a team player and can provide superior knowledge and experience working within the GIS environment to the Engineering Department.

The successful candidate should possess:

- Diploma or Degree in Civil Engineering Technology or Geographic Information Systems Technology or equivalent related education;
- Minimum 1 year experience in developing, analyzing, and maintaining GIS data;
- Practical knowledge and experience in computer systems with an aptitude for use of database and Microsoft Office software;
- Willingness to improve technical ability and understanding within an environment of continuously changing GIS technology;
- Ability to prioritize and plan projects effectively to achieve purpose of the GIS role within Planning and Engineering;
- Excellent organizational skills;
- Class 5 Driver's License.

The Compensation

The City of Dauphin offers a comprehensive wage and benefits package, as contained in its Collective Agreement with the Canadian Union of Public Employees – Local 857. The starting wage for this position is \$26 per hour. Current benefits include extended medical and dental coverage, out-of-country medical insurance, life insurance, long-term disability insurance, and participation in a very attractive defined-benefit pension plan, administered by the Manitoba Employee Benefits Program (MEBP).

Please apply IN CONFIDENCE, including your resume and cover letter, by June 24, 2019 to:
