

City of Dauphin Operational Changes

In response to the Province of Manitoba moving to the Critical level (red) according to the #RestartMB Pandemic Response System, the City of Dauphin has made some changes to municipal operations to ensure safety of our staff and our community.

Effective, November 13, 2020, please note the following:

- City Hall will remain open to the public for essential/important services that cannot easily be performed by other means. We encourage residents to call City Hall at 204-622-3200 to determine if your needs can be met without in-person contact. Please remember that payments may be made via cheque or cash using the drop-box located at the north/main entrance of door, mail, or through your financial institution. Appointments may be scheduled with the appropriate personnel if necessary.
- The City Shop and Water Treatment Plant will remain closed to the general public; however, all operations and services will continue to take place. The Waste Disposal Site will operate as usual with waste and recycling days remaining as scheduled.
- The Fire Hall will be closed to the general public; however, fire protection services will operate as usual.

Mayor, Council and Senior Administration will continue to evaluate operations as the COVID-19 pandemic evolves, and will adjust as required.

For the latest information on COVID-19, please see the following:
